Profile

I'm a MERN stack developer and BCA graduate with expertise in MongoDB, Express, React, and Node.js. I focus on building scalable, performant, and user-friendly web applications, with a keen interest in learning new technologies and enhancing development skills.

Technical Skills

Javascript | Mongo DB | Express JS | React JS | Node js | HTML | CSS | Bootstrap | Tailwind | AWS | SASS | REST API

Projects

E-Commerce Website

This project is an OLX clone that allows users to buy and sell products. Users can upload items they wish to sell, and others can browse and purchase these products. The platform uses MongoDB, Node.js, Express, HTML, CSS, and JavaScript.

Social Media Platform

A full-stack Instagram clone built using the MERN (MongoDB, Express, React, Node.js) stack. This social media platform allows users to create accounts, post images, and like posts, mimicking the core features of Instagram.

BookMyShow (Clone)

This is a clone of the BookMyShow platform, featuring a user-friendly interface. Users can browse and add movies, view detailed information about each movie, and explore showtimes. The platform is built with MongoDB, Node.js, Express, HTML, CSS, and JavaScript.

Education
